**September 11, 2013**

Dear Homeowners:

In an ongoing effort to better the Town's water system, the Town has launched its annual water main installation project.

This year's project, which is funded through a zero interest loan program offered by the Massachusetts Water Resources Authority, will include replacement of the approximately 3,400 L.F. of existing water line on Pratt Street, Grandview Ave, Lewis St, Wonderland Ave and Fairmount Ave. (These areas are to start immediately beginning on Pratt Street)

Also included in the project is the replacement of water mains on Shore Rd, Boulder Road and King Street. These roadways anticipated to start in the spring of 2014.

Temporary bypass waterlines will be installed first, followed by replacement of the water main and new copper service lines up to the property line. The excavated portion of the roadway will receive trench paving. Work is expected to continue through Thanksgiving with any remaining work to be completed in the spring and summer of 2014.

The contractor that has been awarded the project is:  
Moriarty & Sons from North Andover, MA.  
CDMSMITH is the Town's engineering firm

**Thank you** in advance for your patience and cooperation during this construction.

Please contact the DPW with any questions.

Thank you,

James Waugh  
Temporary Director of Public Works
