Please see Superintendent at the front office and request a work request form be filled out for installation of proper shrubs. After a form has been filled out, fees are paid and proper shrubs have been delivered to the cemetery, the cemetery workers will plant the shrubs.

SHRUB PLANTING AND REMOVAL FEES

PLANTING OF SHRUBS	\$25.00 PER APPROVED SHRUB FROM THE LIST ABOVE
REMOVAL OF SHRUBS	\$35.00 PER LOT

For approved shrubs that are installed by other than cemetery workers, the Superintendent's office will try to contact the owner or family by telephone. If contact can not be made by telephone, then a water resistant tag of notification of removal will be placed on the shrub and after tag is installed for two weeks, then the Cemetery Department will remove the item(s) unless the owner and/or family member goes to the office to fill out the proper paperwork and pay fees. If the shrubs must be moved due to improper placement, then the fees will also apply. Cemetery workers will remove non-approved shrubs installed without notice. This rule will be strictly enforced.

FLOWER PLANTING

Annual flowers may be planted **in front of the stone only and up to 12 inches from the stone**.
No flower planting is allowed to the sides or behind the stone.

Fees are subject to change at any time by a vote from the Cemetery Commission

Thank you for your co-operation and helping us keep the grounds looking nice.
