

ARTICLE 20

To see if the Town will vote to raise and appropriate a sum of money for the purchase of a fire engine for the Fire Department; to determine whether is appropriation shall be raised by borrowing or otherwise; or to take any other action thereto.

MOTION

Voted to recommend that \$695,000.00 be appropriated for the purchase of a fire engine for the Fire Department in the Town, including payments of costs incidental or related thereto; that to meet this appropriation the Treasurer with the approval of the Board of Selectmen is authorized to borrow \$695,000.00 under G.L. c44 s7(1) or any other enabling authority; that the Town Manager is individually authorized to contract for and expend any federal or state aid available for the purchase; and that the Town Manager is authorized to take any other action necessary or convenient to carry out the project. Any premium received by the Town upon the sale of any bonds or notes approved by this vote, less any premium applied to the payment of the costs of issuance of such bonds or notes, may be applied to the payment of costs approved by this vote in accordance with Chapter 44, Section 20 of the General Laws, thereby reducing the amount authorized to be borrowed to pay such costs by a like amount.

Chief Michael c. Newbury
Saugus Fire Department
27 Hamilton Street
Saugus, Massachusetts 01906

Dear Chief Newbury:

Enclosed are three (3) copies of a specification for a Pierce® 1250 G.P.M. Pumper built on an Enforcer® chassis. This specification was developed from your previous apparatus and our recent meeting on March 3rd. There are many updates and changes that have been made since your previous purchase.

I encourage you to review this specification carefully, as it not only represents your expectations and goals, but how the apparatus is to be constructed. We realize that this is only a preliminary specification and that changes can be made at any time based on your request. After you have reviewed this specification I welcome the opportunity to meet with you, as well as members of the truck committee, to discuss this document in depth.

At the present time the cost for this apparatus as specified in the attached document would be approximately \$625,000 to 628,000.00. This price would be valid until August of 2017. This price does not reflect any changes that may be made which may increase or decrease the total acquisition cost. The price does not include any progress payment discounts that are available to the Town.

We thank you for your interest in Pierce® apparatus and look forward to working with your Department as this project progresses.

Cordially,

Jeffrey P. Fournier
